CLIC

Maintenant, pour déplacer ce motif en restant dans le mode DORIEN, vous devez repérer les possibilités de telle manière que les 3 notes entourées en rouge (page 1) soient issues de A dorien. Autrement dit on pourra placer ce motif à chaque fois qu'on observe [1 ton + 1 ton] dans ce mode DORIEN. Voici ici le diagramme pour mieux mémoriser ces endroits symbolisés par les notes oranges, et qui sont les endroits sur lesquels vous devez débiter le motif (1ère note du motif).

La note entourée ici est le centre tonal sur lequel vous êtes en train d'improviser avec le mode dorien.

Idem en mixolydien. Les modes DORIEN et MIXOLYDIEN sont des modes qui sont souvent utilisés de manière parallèle (avec la même tonique), parce qu'ils sont très proches. La seule différence entre eux est la nature de leur tierce.

Ici on voit qu'on peut, dans le cas de ces 3 vidéos, et dans le cas du blues en général improviser en mixolydien.
